

Scopus Facts & Figures

July 2009

Scopus is the largest abstract and citation database of peer-reviewed literature and quality web sources with smart tools to track, analyze and visualize research.

Updated daily, Scopus offers:

- Nearly 18,000 titles from more than 5,000 international publishers, including coverage of
 - 16,500 peer-reviewed journals (incl >1,200 Open Access journals)
 - 600 trade publications
 - 350 book series
 - Extensive conference coverage (3.6 million conference papers)
- 38 million records, of which:
 - 19 million records including references going back to 1996 (78% include references)
 - 19 million pre-1996 records going back as far as 1823.
- "Articles-in-Press" from more than 3,000 journals. These articles are available in Scopus prior to their official publication date, from Cambridge University Press, Elsevier, Springer/Kluwer, Karger Medical and Scientific Publishers, Nature Publishing Group (NPG) and the Institute of Electrical and Electronics Engineers (IEEE).

Scopus also offers full integration of the scientific web in its search results, with:

- 435 million scientific web pages
- 23 million patents from 5 patent offices (US Patent and Trademark Office, European Patent Office, Japan Patent Office, World Intellectual Property Organization and UK Intellectual Property Office)

Content coverage:

- Broadest coverage available of Scientific, Technical, Medical and Social Sciences literature, including Arts & Humanities
- Worldwide coverage; more than half of Scopus content originates from Europe, Latin America and the Asia Pacific region
- Historical coverage of the American Chemical Society, Springer/Kluwer, Institute of Physics, American Physical Society, American Institute of Physics, Elsevier, Royal Society of Chemistry and the journals Nature and Science
- 100% coverage of Medline titles

Scopus, designed by users for users, aids research needs by offering:

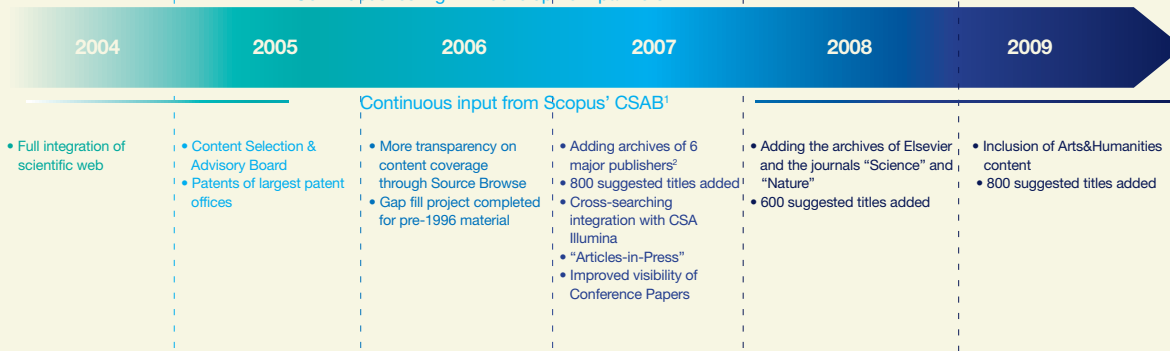

- A simple and intuitive interface
- Linking to full-text articles and other library resources
- Author Identifier to automatically match an author's published research including the *h-index*
- Citation Tracker to simply find, check and track citations in real-time
- Affiliation Identifier to automatically identify and match an organization with all its research output
- Journal Analyzer provides a quick insight into journal performance.
- Alerts, RSS and HTML feeds to stay up-to-date
- Document Download Manager to easily download and organize multiple full-text articles simultaneously
- Interoperability with CrossRef Beilstein and ProQuest's CSA Illumina
- Data export via bibliographic managers such as RefWorks, EndNote and BibTeX
- Bookmarking with 2collab – an online collaboration tool for researchers to share, connect and discuss scholarly information with peers.
